

HOLZHOF®

the **green** playground & urban equipment company

Company Profile

ABOUT US

Holzhof was founded in 1976 as a small family business producing wooden elements for agricultural use; nowadays it is **one of the leading companies in its sector** and employs more than 50 persons in a modern and sustainable establishment.

For over 45 years, we have been present on the market of playground equipment and street furniture, providing our customers with a **complete service from consultancy and design to production and installation.**

We care for the customer across the board by listening to his needs, with the attention of a small company but providing solutions of a large organization

OUR STRATEGY

Since 2021, we have been investing in research and innovation with the aim of **becoming ever greener**, actively contributing to the nation and region's green, **ecological and inclusive transition**.

OUR QUALITY

We are **quality oriented**: Holzhof creations have always stood for high quality, produced in an environmentally friendly way and **made to last for years**.

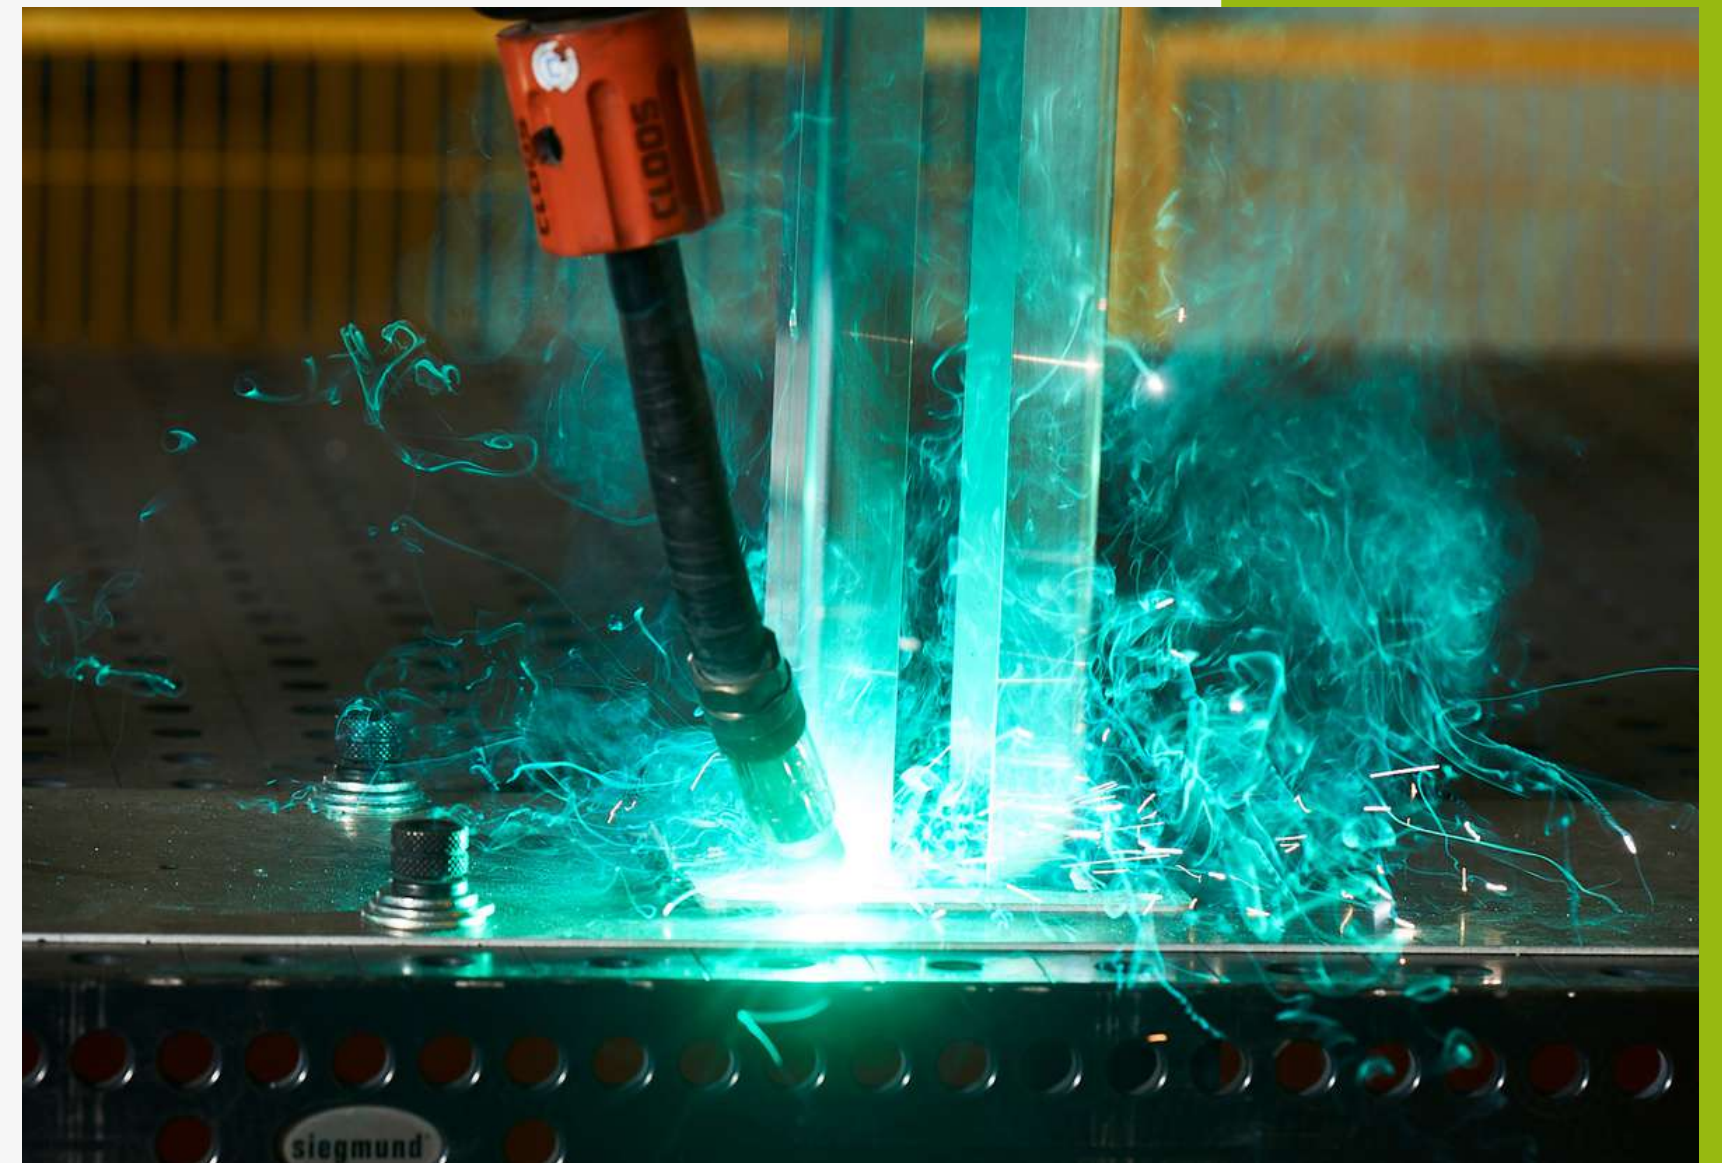

We use a combination of materials, from powder-coated aluminium to polyethylene, also including treated pine-wood or natural robinia timber, to ensure the best fitting of each facility in its surroundings.

Recently, we decided to broaden our horizons and look further by **acquiring two new prestigious brands** that now widen our palette:

- **Modo**, for street furniture that decorates cities and leisure spaces with the essentials
- **Cortec Design**: with its minimalist design offers products for public and private outdoor spaces

HOLZHOF FACTORY

Our state-of-the-art production facilities guarantee **precision, efficiency and safety during operations**; these are the best prerequisites for achieving the highest standards of quality that we also want to offer to our partners and clients.
